REDEFINE YOUR KITCHEN

*Designed To Go Beyond*

## CLOSER EXTRACTION FROM COOKING SMOKE

### CLOSER EXTRACTION

Only 335mm from the stove — almost half the distance of a traditional range hood, the FOTILE X-Series captures cooking smoke straight at the source.

### WIDE SUCTION PLATE

Its 900mm-wide suction plate intercepts cooking smoke and extracts it before it spreads.

## STRONGER BRUSHLESS DIRECT-CURRENT INVERTER (BLDC)

### MORE POWERFUL, BETTER EFFICIENCY

The BLDC motor uses Microchip Technology along with field-oriented (FOC) algorithm boosts maximum static pressure up to **990Pa** with an unrestrained airflow of **1930m<sup>3</sup>/h** to remove cooking smoke while keeping noise level as low as **42dB**.

## FASTER COOKING SMOKE HIGHWAY

### REAR EXTRACTION DESIGN

The rear extraction design allows the extraction motor to rotate 180°, actively reducing the distance of cooking smoke and extracting it in a straight path.

### NAUTILUS AIR PASSAGEWAY

Reduces wind resistance and noise. With the 3-point Extraction System, cooking smoke is collected, extracted and removed in a single uninterrupted path.

## SMARTER AIR DISTRIBUTION

### INTELLIGENT AIR DISTRIBUTION

With a touch of a button, the FOTILE X-Series can **focus its extraction power** to either side of the hood.

### STRONGER EXTRACTION POWER

Divert extraction power up to **70%** on either side of the hood.

### HIGHER AIR PRESSURE

Increase air pressure for another **50%** on either side of the hood.

## SMART SMOTION

*(Smoke + Motion) Detection*

Turn the hood on and off with the wave of a hand.

## EASY TO CLEAN

All-new filter-free design with glass frame, just wipe to restore it to its original lustre.

## LOW NOISE LEVEL

BLDC motor with multiple noise-reduction technologies. Noise level produced is as low as **42dB**.
